Galerie BLANCPAIN ART CONTEMPORAIN invite you to join them in welcoming 1m³, the contemporary art gallery from Lausanne for their first exhibition extra-muros. 1m³ presents the mysterious Josef Hannibal, curator, critic, sociologist and poet. Hannibal is the inspiration that has driven the exhibition programme at 1m³ since June 2006. At the Gallery BLANCPAIN ART CONTEMPORAIN it will be therefore a question of the relationship with the artists, the works of art and the objects. What, above all constitutes its intimate world, "Joseph Hannibal Now !" explores the complex mechanics of exchanges between curators and artists across several forms.
